## **DETAILED ACTION**

### ***Non-Compliant Amendment***

The amendment filed 27 February 2005 is considered non-compliant because it fails to meet the requirements of 37 CFR 1.121. In order for the amendment to be compliant, correction of the following items is required. The status identifier for Claim 11 indicating the claim is 'deleted' is incorrect. The correct status identifier should state that the claim is 'canceled'. In the interest of compact prosecution the amendment has been acted upon with the following supplemental election/restriction requirement.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

The claims are directed to independent and distinct nucleic acid sequences of SEQ ID NO: 1 and GenBank Accession numbers listed in Claims 2 and 16. Applicant is required to elect a single nucleic acid sequence SEQ ID NO: 1 or a single GenBank Accession number listed in either Claim 2 or 16. This requirement is not to be construed as a requirement for an election of species, since each of the nucleic acid sequences or amino acid sequences recited in alternative form is not a member of a single structurally and functionally related genus, but rather constitutes an independent and patentably distinct invention. Separate searches and considerations would be required for examination of each of the nucleic acid sequences.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1638

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
